**SOLID WASTE FACILITY PERMIT****17. LEA Conditions:**

- a. Any changes that would cause the design or operation of the facility not to conform to the terms of the permit are prohibited. Any such change would require a permit modification or revision.
- b. This permit is subject to review by the local enforcement agency and may be modified, suspended or revoked for sufficient cause after a hearing.
- c. Any additional information, as may be required by the enforcement agency must be provided.
- d. The operator shall submit to the LEA, the NCRWQCB, and CIWMB copies of a preliminary plan for the closure of the landfill and a plan for the post closure maintenance of the landfill no later than April 30, 1995, or a final plan two years prior to final closure, whichever occurs first.
- e. The facility shall comply with all federal, state, and local requirements and enactments, including all mitigation measures given in any certified environmental document filed pursuant to Public Resources Code, Section 21081.6.
- f. This permit supersedes the previous permit issued on October 4, 1982. This permit reflects ministerial changes and extends the anticipated closure date to 2019.
- g. The facility is permitted to receive the following non-hazardous solid wastes: residential, commercial, construction/demolition, campground and roadside litter.
- h. This facility must comply with the State Minimum Standards for Solid Waste Handling and Disposal.
- i. Salvaging is permitted at this site as deemed appropriate and necessary by the operator, so long as the activity is consistent with CCR 17687 through 18692.
- j. Cover shall be provided over spread and compacted waste at least monthly until Waste Discharge Requirements and Forest Service Use Permits are amended to allow a lesser frequency. Cover can then be provided on a frequency of at least every six months provided that cover is provided in a timely manner upon determination by the LEA or the operator that additional cover is necessary for reduction of flies, rodents or other vectors, litter, odors, full trenches, or other nuisances.
- k. The current owner of the landfill is the United States Department of Agriculture, Forest Service, as indicated in item number 4 of this permit. However, the County of Siskiyou, Public Works Department, 305 Butte Street, Yreka, CA 96097 is in the process of purchasing the site and will become the site owner within the next permit review (5 year) period. A certified report (notice) of the change of ownership shall be provided to the LEA within 30 days of the change of ownership.
- l. Household hazardous wastes, such as batteries and used oil, shall be handled in a manner approved by the enforcement agency and the California Integrated Waste Management Board.

## 17. LEA Conditions:

\*Note: Items 13. g. and h.: These determinations or findings have not been made as this site is neither new nor undergone expansion, per 50000.5.

### Item 5.d.

A permitted traffic volume has not been established for this site. Based on the maximum permitted tonnage of one ton per day, .5 cubic yards of waste per vehicle, and a conversion factor of 200 pounds per cubic yard of waste, the maximum traffic that could be anticipated at the site would be 20 vehicles per day. There is no method or procedure deemed necessary or appropriate, at this time, for this site to monitor or enforce a specific traffic volume. 20 vehicles is more than would ever reasonably be anticipated at this site, but any situation that would exceed this amount would not effect operations at the site.
